Supplement for Travelers with Diabetes

CUSTOMER NAME: _____

TOUR: _____ DATE SENT: _____

We've received your application but have a few more questions regarding your diabetes. Please check which of the following that apply to your diabetes, and return to us within two weeks. (After that time regular cancellation penalties will apply if you inform us of extra needs for which we may not have planned.)

If a nurse is needed for injection this may result in an extra charge.

-
- Insulin dependent and can independently administer insulin. No nurse needed.
 - Insulin dependent; cannot administer insulin myself. Nurse needed.
 - Bringing insulin on the tour and need a refrigerator in my hotel room for storage.
 - My diabetes is controlled by oral medication; no insulin injections needed.
 - My diabetes is controlled by diet; no insulin needed.
 - No blood sugar testing necessary, or no assistance needed for blood sugar testing
 - Blood sugar testing must be done by staff. If "yes" is this a finger prick test?
 - other special needs for diabetes (explain): _____

If you are bringing syringes for injection on a tour by AIR you will need to carry a letter from your doctor stating you must carry insulin. This is needed to get needles through airport security. Also, please send us a copy of said letter.

If you are bringing syringes please bring a sharp container for the used needles.
